POWER GENERATION & POWER DISTRIBUTION

Company profile of the MENZER GmbH

Founded in 1991 by Mr. Maik Menzer, the MENZER GmbH still is a family-run company, working on a global scale with its headquarters in Gera, Germany. Founded in 1991 by Dipl.-Ing. Maik Menzer, we are able to look back on more than 20 years of experience in the erection of electrical facilities. The MENZER GmbH made a name for itself especially in the worldwide erection and start-up of power stations and block heat and power plants. Furthermore our business activities include the planning and delivery of entire electrical equipment and installation, from power generation to medium voltage distribution. In addition the MENZER GmbH has the ability to act as an independent consultant.

Through an own CAD-office and experienced project manager, the MENZER GmbH is a reliable partner when it comes to the erection, start-up and maintenance respectively service of your projects.
